Subject: Support for 102,850 Square Foot Long Beach Airport Terminal Remod el

November 16, 2005

Dear Mayor O'niel

I support an improved airport terminal project that will provide adequate terminal space and parking while reducing air pollution and traffic congestion. I agree with the Long Beach Alliance position that the 102,850 square foot terminal with 14 airplane parking positions is the minimum size needed to accommodate the current and future passenger loads.

It is my hope that the City Council actively supports the current Environmental Impact Report (EIR) timeline and avoids further delays. It is time push forward the plan for an improved terminal building at the EIR recommended size of 102,850 square feet.

Sincerely,

Darian R. Rausch
